

# BURY CROQUET CLUB KEEPING CONNECTED issue 3

**Message from Richard H**

Hopefully people are getting practice on their lawns at home.

I would do the same myself, but the lawn needs mowing and my gardener is I guess stranded in Thailand (lucky man) where he goes each winter. I could mow it myself but living in a terraced cottage I have to carry the mower through the house, and back with the grass clippings. Seriously messing up my immaculately clean floor. (Alright that is an exaggeration.) But you see what I mean.

I did say the Improvers could begin after Easter. Which makes me sound like Donald Trump! But I am afraid we have all got to be sensible and stay at home for now.

Once the restrictions are reduced, we could think about starting again. In order to preserve social distancing I could sit at the edge of the lawn. With a megaphone. (Has anybody got one I could borrow?) That would help me to dispense my invaluable advice (example 'you are playing the wrong ball') and do my best to Improve everybody.

Until then stay indoors, keep washing your hands, and remember that the tonic in gin & tonic has quinine and other things which might keep you safe. You can't be too careful!

Margaret Anderton's mini Easter Garden. Clever Lady. Well we know she has green fingers!!

Lovely Easter Greeting from Margaret Eccles. Especially like the Egg!! 😊

**GETTING US IN THE MOOD**

"My previous picture was of my plum tree not the cherry. Here is the cherry in full bloom with a model displaying the new club polo shirt. I thought it would be nice to look forward to when we can play again and wear the shirt for an event." Barbara

Who remembers Scampi and Chips in a basket? 1970's? We had it on Saturday night (11th)!! H & P 😄
